

AUSTAL

Strategic Partnership Proposal

Joint Venture Opportunity in Romanian Infrastructure

Confidential | April 2026

About AUSTAL

A proven Romanian construction partner with deep infrastructure expertise

Road Infrastructure

Proven track record in road construction, highway works, and transport infrastructure projects across Romania

Water & Sewer

Execution capabilities in water network expansion and sewerage system construction for public utilities

Civil Works

Comprehensive civil engineering expertise covering foundations, structural works, and public facility construction

Operational Capacity

Own ballast resources, heavy equipment fleet, and experienced operational teams ready for large-scale deployment

AUSTAL by the Numbers

€35-40M

Increasing Annual
Turnover

€40M+

Public Contracts
Completed & Ongoing

€43M+

Ongoing Tender
Participation

€1B+

Targeted Tender
Pipeline 2026

Projects range from €50M to €200M, covering road, utilities, and civil infrastructure sectors

Why Romania — Why Now

A booming EU-funded infrastructure market with immediate opportunities

€7.6 Billion

EU transport infrastructure allocation for Romania

9.2% Growth

Construction industry growth in 2025; 5.5% expected 2026

€33 Billion

Romania's 2026 capital budget — largest in modern history

429 km

New motorways planned to be completed by Q2 2026

Key Projects

- ▶ A1 Sibiu–Pitești (€500M EIB)
- ▶ A7 Ploiești–Pașcani (€1.8B)
- ▶ A3 Nădășelu–P. Sălajului
- ▶ Bucharest–Alexandria Highway
- ▶ Arad–Oradea Expressway
- ▶ Water & sewer: 4,500 km expansion

The Partnership Model

A Joint Venture structure for large-scale public infrastructure tenders

AUSTAL Contribution

- ✓ Deep local market knowledge and regulatory expertise
- ✓ Proven execution capacity on projects up to €40M+
- ✓ Own equipment fleet and ballast resources
- ✓ Established operational teams on the ground
- ✓ Direct access to public procurement pipeline
- ✓ Active tender participation (€43M+ ongoing)

Partner Contribution

- ✓ Financial strength and strong balance sheet
- ✓ Relevant annual turnover for tender qualification
- ✓ Provision of bid guarantees
- ✓ Provision of performance guarantees
- ✓ Provision of advance payment guarantees
- ✓ International construction track record

Ideal Partner Profile

Key qualifications and characteristics we seek in a JV partner

Financial Capacity

Strong balance sheet with sufficient annual turnover to meet qualification thresholds for tenders ranging €50M–€200M. Ability to provide bid bonds and guarantees.

Guarantee Capability

Capacity to issue bid guarantees, performance bonds, and advance payment guarantees required by Romanian public procurement regulations.

Industry Experience

Demonstrated track record in road infrastructure, civil engineering, or public utilities construction. Experience with EU-funded projects is a strong plus.

Regulatory Compliance

Alignment with EU procurement standards (Directive 2014/24/EU) and Romanian Law 98/2016. Clean legal standing with no procurement disqualifications.

International Reach

Established presence in European or international markets, with interest in expanding into the fast-growing Romanian infrastructure sector.

Mutual Benefits of Partnership

For the Partner

- ✓ Immediate access to Romania's €33B capital investment market
- ✓ Established local partner with regulatory expertise
- ✓ Ready pipeline of €1B+ in identified tender opportunities
- ✓ Shared risk on large-scale projects
- ✓ Access to local workforce, equipment, and supply chains

For AUSTAL

- ✓ Financial backing to pursue €50M–€200M projects
- ✓ Guarantee support for bid, performance, and advance bonds
- ✓ International credibility and expanded track record
- ✓ Ability to scale operations beyond current capacity
- ✓ Knowledge transfer and best practice exchange

For the JV

- ✓ Competitive advantage combining local + international strength
- ✓ Qualification for the largest tenders in Romania
- ✓ Diversified risk across multiple project types
- ✓ Stronger negotiating position with subcontractors
- ✓ Long-term platform for Southeast European expansion

EU Funding & Regulatory Framework

Funding Sources

EU Cohesion Fund

Core infrastructure financing for transport and environment

Recovery & Resilience Facility (PNRR)

Highway development and green infrastructure

European Investment Bank (EIB)

€1.4B for A3 & A7; €500M for A1 motorway

SAFE Funds (post-2026)

Continuation of infrastructure spending beyond PNRR

National Budget (2026)

€33B capital allocation — 8% of GDP

Legal Framework

EU Directive 2014/24/EU

Public procurement standards for all member states

Romanian Law 98/2016

National transposition of EU procurement directives

SEAP Platform

Electronic System for Public Procurement (official portal)

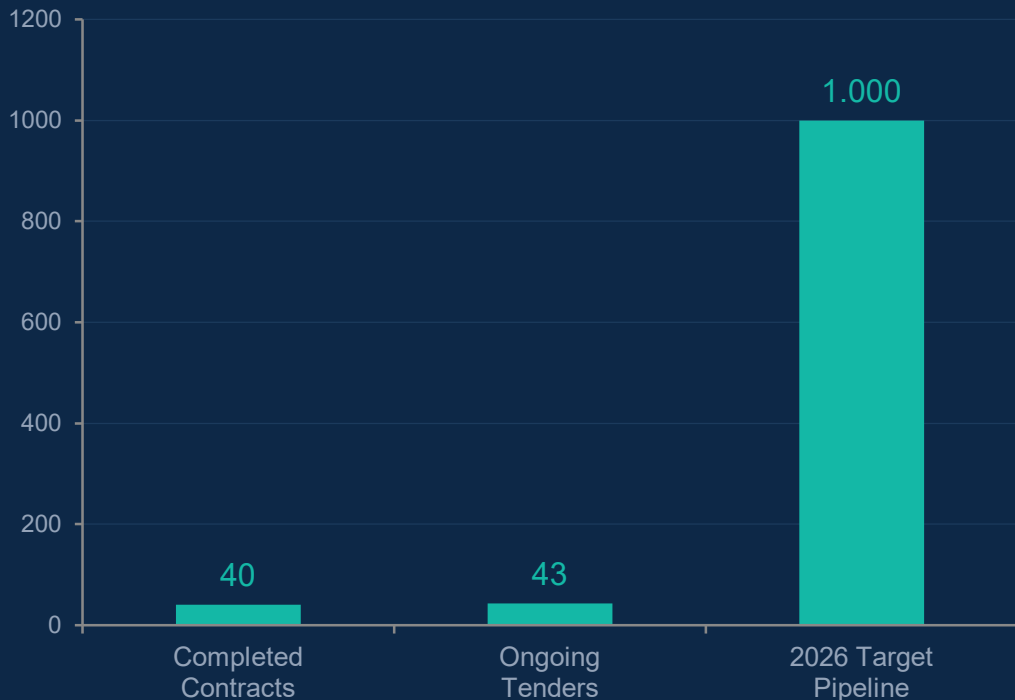

ANAP Oversight

National Authority for Public Procurement regulation

JV Provisions

Joint ventures formally recognized in Romanian procurement law

Tender Pipeline & Growth Trajectory

Growth Context

- ▶ AUSTAL has steadily grown from regional contractor to a company with €35–40M+ turnover
- ▶ Currently participating in tenders worth €43M+ through JVs and subcontracting
- ▶ 2026 target pipeline exceeds €1 billion in projects ranging €50M–€200M each
- ▶ Partnership unlocks access to the largest-scale tenders that require combined financial qualification
- ▶ Romania's infrastructure boom creates a multi-year opportunity window

Next Steps

A clear path from introduction to joint tender submission

01

Initial Meeting

Introductory call or meeting to discuss mutual interests, capabilities, and strategic alignment

02

Due Diligence

Exchange of company profiles, financial references, and relevant project portfolios for mutual evaluation

03

JV Framework Agreement

Drafting and signing of a Joint Venture framework agreement defining roles, responsibilities, and profit-sharing

04

Tender Identification

Joint selection of target tenders from the identified €1B+ pipeline based on combined qualifications

05

Joint Bid Submission

Collaborative preparation and submission of competitive bids, leveraging both partners' strengths

Let's Build Together

AUSTAL is ready to partner with a strong international ally to capture Romania's unprecedented infrastructure opportunity.
